FIFTY YEARS PUBLISHERS!

NEW SCHOOL-BOOKS.

BARNES' NEW NATIONAL READERS

In five numbers. Printed on beautiful paper. Elegantly illustrated. Admirably graded. Better than any others you have seen, and as CHEAP AS THE CHEAPEST.

BARNES' GEOGRAPHIES

A two-book series. Accurately illustrated from photographs. Clear, distinct. Beautifully colored maps. Copious foot-notes. Bound in cloth. Popular everywhere.

BARNES' HISTORIES

The BRIEF History of UNITED STATES has a LARGER sale than any other similar book. Has been the standard for years. The Primary History of the United States is a sumptuous little book made up on the same careful and accurate plan. Our General History and Lancaster's English History are widely used.

BARNES' LANGUAGE SERIES

Sill's Practical Lessons in English, Barnes' Language Lessons, and Maxwell's Primary Lessons form a complete series of grammatical study, giving rational methods of learning English.

BARNES' COPY-BOOKS

Primary Series four, Grammar Series six books. Elegant, business-like, practical. Familiar words, early use of sentencse. The Writing Charts are most valuable as teachers' aids. The Souvenir presents beautiful examples of work from thirty-nine proficient penmen. Specimen book containing complete set of copies sent on application.

BARNES' POPULAR DRAWING-BOOKS

Give full courses in free-hand, mechanical, perspective drawing, and in orthographic projection.

FICKLIN'S ARITHMETICS

Two Books. ELEMENTARY and COMPLETE, full of brief solutions, concise rules, and practical examples.

STEELE'S SCIENCE SERIES

Are the most popular science books in the market. The ASTRONOMY, CHEMISTRY, PHYSICS, and ZOOLOGY have just been revised (1888).

Specimen pages and descriptive circulars of our books will be sent on application.

HARPER'S READERS.

MESSRS. HARPER & BROTHERS take pleasure in announcing the publication of a new series of School Readers.

1st. These Readers have been prepared with special reference to the practical work of the school-room. They are, preëminently, *reading-books.*

2d. They contain a larger amount of reading-matter than those of any other series.

3d. These books form a complete and unbroken series. The necessity of "supplementary" Readers is avoided, and desirable uniformity in both matter and method is secured.

4th. The reading-lessons have been selected or prepared with a view towards cultivating a taste for the best style of literature.

5th. Many of the lessons are such as appeal to the pupil's moral perceptions and strengthen his love for right-doing; others are intended to cultivate an appreciation of the wonderful and the beautiful in nature; others to introduce him to a knowledge of the sciences and the arts; and still others to aid in arousing his patriotism and a commendable love for American institutions.

6th. Pieces to be memorized, comprising some of the finest gems of poetry in our language, are appended to each Reader.

7th. Only a few new words are introduced with each lesson.

8th. By means of the word-lists pupils learn in a natural and practical manner how to use the dictionary. In the Third and Fourth Readers the meaning of every new word is also given.

9th. The illustrations are of a high order of merit. They are the work of the best artists in America, and have been prepared with special reference to their educational value.

10th. The books are not the result of hap-hazard methods or of untried theories. They are the outgrowth of the experience of practical teachers.

11th. As regards paper, typography, and binding, no pains or expense will be spared to make these books superior to any others of the kind ever published.

12th. They are the cheapest School Readers in existence.

***HARPER'S FIRST READER.** (*In Press.*)	*144 pages*	*24 cents.*
***HARPER'S SECOND READER.** (*In Press.*)	*208 pages*	*36 "*
***HARPER'S THIRD READER.** (*In Press.*)	*312 pages*	*48 "*
***HARPER'S FOURTH READER.** (*In Press.*)	*416 pages*	*60 "*
***HARPER'S FIFTH READER.** (*In Preparation.*)	*520 pages*	*90 "*

Correspondence with reference to copies for examination, or supplies for first introduction, is respectfully solicited.

THE

AMERICAN EDUCATIONAL CATALOGUE FOR 1888.

[PUBLISHERS' PRICES.]

NOTICE.—In this Catalogue only prices made by publishers themselves are given—retail, if retail, in first column; "net" (wholesale), if "net," in second column; where a "mailing" percentage is specified by the publisher, the "mailing price" is given in the retail column marked with an asterisk (*), in addition to the wholesale price. When price-columns are left blank, the publisher failed, on application, to furnish price. A double asterisk (**) in price-columns designates books forthcoming. New books, issued since the publication of the Catalogue of 1887, *are designated by a single asterisk (*) before title.*

☞ *In comparing prices or ordering at retail, private buyers should bear in mind that a percentage must be added to prices quoted at wholesale, to cover freight, handling, delivering, etc. Discounts on quantities vary on different lines, according to the kind of prices adopted by the respective publishers.*

For subject classification (and for collective references to classic authors entered here under separate editors), see the second part of the Catalogue, following this main alphabet.

TELEGRAPHIC CODE.

[*Note*–1888. The Telegraph Company has a rule under which any combination of letters not forming a dictionary word is subject to rating at the price of a word for each letter. This rule, when enforced, is prohibitory against all codes in use for the present purpose. As it has not been uniformly enforced we must advise that inquiry be made at the telegraph office before sending any code despatches.—ED.]

This code is based on the name of publisher, name of author, and designation of individual book (sometimes by initials and sometimes necessarily arbitrary)—a natural system, giving more opportunity to catch possible errors than where hap-hazard words or signs are associated arbitrarily with each book. This method also allows code-signs for new books to be interpolated in future catalogues without breaking down the system.

Each book is designated by six letters, the first and second being the first two letters of the author's or series' name, so as to preserve an approximately alphabetical arrangement, corresponding nearly to the arrangement of the books; the third and fourth the designation of the book by that author or in that series; the fifth and sixth the abbreviation of the publisher. Thus, Adefco *would mean Addick's Elementary French, published by Charles Collins.*

The name of the publisher, as designated by the two letters (fifth and sixth) is placed in SMALL CAPITALS, *so as to be readily caught by the eye. Where two or more publishers issue the same book, either separate code-words are given, or the code-word is formed by adding to the four letters the two letters designating the publisher preferred. Thus, in the case of the Standard Supplementary Readers, issued in identical editions by four houses under mutual arrangement, the first of that series would be ordered as* StsaAP, *or* StsaBA, *or* StsaIV, *or* StsaVA, *according as the dealer preferred Appletons', or Barnes', or Ivison's, or Van Antwerp's issue. If he has no choice, the sign* xx *may be used to designate any publisher; thus,* Stsaxx *would mean Standard Supplementary 1st Reader, any edition.*

In writing a despatch treat the small capitals as ordinary lower-case letters, using a capital only at the beginning of each code-word to separate it from the previous code-word.

In the case of a series, as Rightmyer's Penmanship, having but one code-sign, the first, second, etc., of a series may be ordered by affixing to the six letters a seventh, or seventh and eighth, designating the ordinal numbers, to wit: m-1st, n-2d, o-3d, p-4th, q-5th, r-6th, s-7th, t-8th, u-9th, v-10 or o. *Thus,* RipeBEm *would order Rightmyer's Penmanship, no.* 1; RipeBEq, *same, no.* 5; RipeBEv, *same, no.* 10; RipeBEmo, *same, no.* 13. *In the case of special State editions of geographies, etc., the name of the State must be* added *as a separate word.*

The number ordered is designated by the last letters of the code-word, to wit: a-1, b-2, c-3, d-4, e-5, f-6, g-7, h-8, i-9, j-0, k-00, l-000. *Thus, six letters only mean one copy;* b *as a last letter means* 2 *copies;* ab, 12 *copies;* bj, 20 *copies;* ak, 100 *copies;* abe, 125 *copies;* al, 1000 *copies.*

In using this code, preface the despatch with the abbreviation for shipping directions, with the letters PW *added, to wit:* Sendpw, Mailpw, Exprpw, Frgtpw, Fastpw, Boatpw, Enclpw, *mean respectively, Send in any way, Send by mail, Send by express, Send by freight, Send by fast freight, Send by boat, Enclose to usual agent—the following books, for interpretation of which see* PUBLISHERS' WEEKLY *code.*

When a dispatch is received it is to be interpreted as follows: The first word is shipping directions. Each additional word is an order for a line of books (unless in the case of an explanatory word, like the name of a State, which follows *the code-word of the book to which it refers). In each of those words the first and second letters are the first and second letters of the name of the author or series, under which it is alphabeted in the* EDUCATIONAL CATALOGUE. *This reduces the search to a few lines, when the third and fourth letters, or the fifth and sixth letters, give an easy cue. The only difficulty will be in the case of long series like the Ahn books, where the arbitrary signs necessarily used may give some slight trouble. If there are only six letters, one copy of the book is required. Additional letters mean, if in the first part of the alphabet, the number of copies wanted; if in the last part, the number in a series which has but one code-sign.*

Thus: Exprpw Ahhist, Stsaxxab, Stsbbad, Ripeben, Ripebesab, Ripebemnbd, Krasapsadd, Krpsapbd, Anlkhmb, *reads,*

Express, using PUBLISHERS' WEEKLY code:

1 Ahn-Henn First French Reader, with notes, half roan.
12 Standard Supplementary Reader, No. 1, any edition.
4 " " " " 2, Barnes' edition.
1 Rightmyer's Penmanship, No. 2.
12 " " " 7.
24 " " " 12.
144 Krusi's Drawing-Books, Analytic Series, No. 7.
24 " " " Perspective Series, Nos. 9–12.
2 Keys to Andrews' Latin Exercises.

The difficult cases above cited will not often occur, and after a little practice the code will be easily worked, either in making up or filling orders. The compiler will be greatly obliged, however, for any suggestions for correction or improvement suggested by actual use. The saving, both in cost of telegraphing and in manual labor of writing, will be found to be very considerable.

The growing bulk of the EDUCATIONAL CATALOGUE *has made it impracticable to include maps, charts, dialogues, supplementary reading, individual numbers of literature series, teacher's aids or in general, books not ordered in quantity for class use, but singly for individual use. If the demand justifies, it is proposed to issue a separate catalogue of such books.*

READY SEPT. 1:

A History of the United States

AND ITS PEOPLE

For the Use of Schools.

By Dr. EDWARD EGGLESTON.

Dr. Eggleston's new History of the United States, which will be ready Sept. 1, will be one of the most interesting and attractive school-books ever issued. The author possesses some special qualifications not often combined in the writer of a school history. He has used his art as a story-teller, and his experience as a writer, to make American history something living, human, and real, and therefore delightful. The illustrations, also, are the result of long years of investigation, and in all cases original sources have been sought to secure the greatest historical accuracy. The list of artists and engravers engaged upon the work includes some of the most noted and expert in this country.

RICHTER'S INORGANIC CHEMISTRY. A Text-Book for Students, by Prof. VICTOR VON RICHTER, University of Breslau. Translated by EDGAR F. SMITH, M.A., Ph.D., Professor of Chemistry in Wittenberg College, Springfield, Ohio; formerly in the laboratories of the University of Pennsylvania; Member of the Chemical Societies of Berlin and Paris, etc. Second American from the Fourth German Edition. 89 wood-cuts and colored plate of Spectra. 12mo, 400 pages, cloth, $2.00. **Examination price, postpaid, $1.50.**

In this work the theory and facts of the science are brought close together and their intimate relation clearly shown. The descriptions of the various inorganic substances are full and embody the latest results and discoveries. The book has reached five editions in both Germany and Russia and has been translated in Holland and Italy. This, the second American edition, has been recommended at a number of prominent schools and colleges throughout the country.

RICHTER'S ORGANIC CHEMISTRY, OR CHEMISTRY OF THE CARBON COMPOUNDS. By same author and translator as above. Illustrated. 12mo, 710 pages, cloth, $3.00; leather, $3.50. **Examination price, postpaid, $2.00.**

This volume contains a full description of the Carbon Derivatives. The treatment of the various classes of bodies is comprehensive, the most recent and interesting results of chemical research being given with special fulness.

Richter's Organic Chemistry is used as a text-book in those schools that devote the necessary time to this branch; for those, however, who must use smaller or more elementary books it will be found extremely valuable as a work of reference.

STAMMER'S CHEMICAL PROBLEMS. Translated from the Second German Edition, with the explanations and answers added by Prof. W. S. HOSKINSON, A.M., Wittenberg College. 12mo, cloth, 75 cents. **Examination price, postpaid, 50 cents.**

"Stammer's work is highly practical, and for that reason I have a preference for it. Professor Hoskinson has performed his work well, and deserves the thanks of teachers of the science."—Prof. EDGAR F. SMITH, Translator of Richter's Chemistries.

BLOXAM'S CHEMISTRY: Inorganic and Organic. Sixth edition. With Experiments. Over 300 engravings. Cloth, $4.50; leather, $5.50.

This edition contains a large amount of new material and most of the book has been rewritten to give a more comprehensive view of the chemistry of the day.

BLOXAM'S LABORATORY TEACHING. Progressive Exercises in Practical Chemistry. Fourth edition. 89 engravings. Cloth, $1.75.

YEO'S MANUAL OF PHYSIOLOGY. Third edition. A Text-Book for Students. Carefully printed illustrations and a complete glossary. Cloth, $3.00; leather, $3.50.

WILSON'S TEXT-BOOK OF DOMESTIC HYGIENE AND SANITARY INFORMATION. A Guide to Personal and Domestic Hygiene. By GEORGE WILSON, M.D., edited by Jos. G. RICHARDSON, M.D., Prof. of Hygiene at the Univ. of Penna. 314 pages, 12mo, cloth, $1.00.

☞ An excellent Text-Book for Schools and Colleges. Including articles on The Effects of Intemperance; The Human Body; Digestion and Nutrition; The Causes of Disease; Food and Diet; Cleanliness and Clothing; Exercise, Recreation and Training; The Home and Its Surroundings; The Prevention of Infectious Diseases; etc.

PARKES' HYGIENE. A Practical Manual. Edited by F. S. B. FRANÇOIS DE CHAUMONT, M.D., F.R.S. Seventh edition. Illustrated with plates and wood-cuts. 786 pages, 8vo, cloth, $4.50.

WILSON'S HANDBOOK OF HYGIENE AND SANITARY SCIENCE. By GEORGE WILSON, M.A., M.D. Sixth edition. Illustrated. 552 pages, 12mo, cloth, $2.75.

TIDY'S HANDBOOK OF MODERN CHEMISTRY, Inorganic and Organic. For the use of students. Second edition, revised and enlarged. 8vo, cloth, 910 pages, $5.50.

DAVIS' TEXT-BOOK OF BIOLOGY. Comprising Vegetable and Animal Morphology and Physiology. Designed more especially to meet the requirements of the intermediate science and preliminary scientific examinations of the London University. By J. R. AINSWORTH DAVIS, B.A., Trinity College, Cambridge. With numerous illustrations, glossary, and examination questions. 12mo, cloth, 478 pages, $4.00.

HADDON'S INTRODUCTION TO THE STUDY OF EMBRYOLOGY. By ALFRED C. HADDON, M.A., Professor of Zoölogy in the Royal College of Science, Dublin. With nearly 200 illustrations. 8vo, cloth, 366 pages, $6.00.

KIRKES' HANDBOOK OF PHYSIOLOGY. By W. MORRANT BAKER, F.R.C.S., and VINCENT DORMER HARRIS, M.D. Eleventh edition, with nearly five hundred illustrations. 916 pages, 12mo, cloth, $4.00; sheep, $5.00.

STIRLING'S OUTLINES OF PRACTICAL PHYSIOLOGY. Being a Manual for the Physiological Laboratory, including Chemical and Experimental Physiology, with reference to Practical Medicine. With 142 illustrations. 326 pages, 12mo, cloth, $2.25.

A Revised and Enlarged Edition of WARREN COLBURN'S ***First Lessons*** (*Intellectual Arithmetic upon the Inductive Method of Instruction*) was published in 1884; descriptive circulars containing sample pages and recommendations—from which the following have been selected—will be sent to any address on application.

"It is the only English text-book upon arithmetic that I can unhesitatingly recommend."—Col. F. W. PARKER.

"It has never had a superior, and we think not an equal. . . . "—WILLIAM H. PAYNE, A.M., Professor of the Science and Art of Teaching, University of Michigan.

"Were I a business man, the training that I would exact from my accountants would be that obtained from Warren Colburn's book."—ALFRED S. ROE, Principal of High School, Worcester.

"The alterations and additions in this edition are improvements in what was previously the best, and by far the best, manual of mental arithmetic that I have ever seen."—THOMAS HILL, Ex-President of Harvard University.

"I will guarantee the success in higher mathematics of any one who, while young, has mastered this book."—J. H. BRAYTON, Principal of Webster School, Chicago, Ill.

SECOND LESSONS.

WHEELER'S ***Second Lessons*** (in press), although complete in itself, has been prepared to follow *Colburn's First Lessons.* Its brevity, the emphasis that it places on fundamental principles and their applications, and the omission of useless subjects, will make it acceptable, it is hoped, to those teachers and business men throughout the United States who demand that the essentials of arithmetic shall be better taught than now, and in less time, and that the non-essentials shall be omitted.

These two books form a complete course in arithmetic, which is characterized throughout by a careful application of the Inductive Method of Instruction by the aid of which the pupil is led to regard *a new word* as a labor-saving device for the expression of an idea, *a definition* as a brief statement of the net result of personal observation and thought, and a *rule* as a brief statement of how *he* has done something.

The ***Second Lessons*** will be published in August, 1888. A descriptive circular, including sample pages, will be ready soon.

IN PRESS.

A NEW AND REVISED EDITION OF

Andrews and Stoddard's Latin Grammar.

By HENRY PREBLE, Assistant Professor of Greek and Latin at Harvard University.

We take pleasure in announcing that we shall publish shortly a new and carefully revised edition of the widely famous *Andrews and Stoddard's Latin Grammar.* While this edition retains the valuable features of the old edition, it embodies the results of modern scholarship, and is designed to be the best possible combination of *practicability and scientific accuracy.* The favor with which the new edition [in manuscript] has already been received by teachers in preparatory schools and by professors in colleges warrants us in assuring all teachers of Latin that they will find it well worthy of their careful examination. We hope to have the work ready by August 1, 1888.

RAND, McNALLY & CO.'S

New Series of Educational Maps,

ESPECIALLY DESIGNED AND ENGRAVED FOR USE IN SCHOOLS.

Most Complete, Handsome, and Substantial School Maps ever Published.

These maps are distinguished by several new and useful features, being beautifully bold in outline, free from unimportant names, and so distinct that no difficulty is experienced in reading any name. They show the latest geographical discoveries and political changes in every part of the world. They are handsomely and artistically colored, so that the political boundaries can be readily distinguished at a distance. The names of towns are engraved in clear, bold type, and are also indicated by large black dots, so that the series can, if preferred, be used for "outline" maps. The lengths of the principal rivers and the altitudes of the highest mountains are engraved on the maps.

The maps are mounted on heavy cloth, with rollers, and varnished.

They are designed to be used in connection with any text-book on geography. No "key" is required. Any map sold separately. Any map can be sent by mail, postage prepaid.

The Handy Reference Atlas of the World.

By John Bartholomew, F.R.G.S., etc. With one hundred maps and plans, full geographical statistics and a complete index. 12mo, cloth, $3.00; half mor., $4.00; Persian mor., $5.00.

The maps (strongly mounted on guards) are made from the latest surveys and give not only the most recent geographical and political information, but also the principal physical and commercial features of the world. Nearly fifty pages of the volume are devoted to closely (yet clearly) printed statistics, and a copious index ingeniously indicates both the map and exact spot on it where any given place can be found.

Its 12mo size enables the reader to readily consult it in his hand without recourse to stand or table, and permits of its being shelved with other library volumes.
